

Progression Routes - Life Science, 2024-25

University of Glasgow

Scottish Wider
Access Programme

- These progression routes are for students studying on the following SWAP programmes: Access to Life Science, Access to Health Science, Introduction to and Medical Studies and Access to Biology and Chemistry.

University	Degree course names	Entry Requirements	Special Requirements/Comments
<p>• The University of Glasgow offers a range of subjects that may be taken as single or joint degrees. Please consult the online undergraduate degree information, including 'degrees and UCAS codes' to view joint subject combinations and ensure you use the correct course code when applying through UCAS. All undergraduate degrees are listed alphabetically here: https://www.gla.ac.uk/undergraduate/degrees/ . Please note we have not included the joint honours options here.</p> <p>• Please also ensure you understand the structure of these undergraduate degrees. Information on degree structure can be found here: https://www.gla.ac.uk/undergraduate/choosingyourdegree/ .</p> <p>• The University of Glasgow has set up Articulation Programmes in partnership with local Colleges. These programmes allow students on bespoke college HNCs to articulate directly into Year 2 of certain undergraduate life science degree programmes. Please see *further information at end of this document and also consult this web page: https://www.gla.ac.uk/study/wp/hncarticulation/#lifesciences(bsci) .</p>			
University of Glasgow	Anatomy, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Archaeology, (BSc Hons)	Pass all units and ABB student profile	<u>Important: Must apply with science BSc (Hons) UCAS code.</u>
University of Glasgow	Biochemistry, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Chemistry, BSc (Hons)	Pass all units and ABB student profile	Chemistry degree options will require Higher mathematics units. Students on chemistry and biology programmes should contact their tutor and the SWAP office if they are interested in chemistry-based degrees.

Progression Routes - Life Science, 2024-25

University of Glasgow

- These progression routes are for students studying on the following SWAP programmes: Access to Life Science, Access to Health Science, Introduction to and Medical Studies and Access to Biology and Chemistry.

Scottish Wider
Access Programme

University	Degree course names	Entry Requirements	Special Requirements/Comments
University of Glasgow	Chemistry with Medicinal Chemistry, BSc (Hons)	Pass all units and ABB student profile	Chemistry degree options will require Higher mathematics units. Students on chemistry and biology programmes should contact their tutor and the SWAP office if they are interested in chemistry-based degrees.
University of Glasgow	Environmental Geoscience, BSc (Hons)	Pass all units and ABB student profile	
University of Glasgow	Geography, BSc (Hons)	Pass all units and ABB student profile	<u>Important: Must apply with science BSc UCAS code.</u>
University of Glasgow	Geology, BSc (Hons)	Pass all units and ABB student profile	
University of Glasgow	Genetics, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Human Biology, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Immunology, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.

Progression Routes - Life Science, 2024-25

University of Glasgow

Scottish Wider
Access Programme

- These progression routes are for students studying on the following SWAP programmes: Access to Life Science, Access to Health Science, Introduction to and Medical Studies and Access to Biology and Chemistry.

University	Degree course names	Entry Requirements	Special Requirements/Comments
University of Glasgow	Marine and Freshwater Biology, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Materials Chemistry, BSc (Hons)	Pass all units and ABB student profile	Chemistry degree options will require Higher mathematics units. Students on chemistry and biology programmes should contact their tutor and the SWAP office if they are interested in chemistry-based degrees.
University of Glasgow	Microbiology, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Molecular and Cell Biology, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Molecular and Cell Biology (with Biotechnology), BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Molecular and Cell Biology (with Plant Science), BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Neuroscience, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.

Progression Routes - Life Science, 2024-25

University of Glasgow

Scottish Wider
Access Programme

- These progression routes are for students studying on the following SWAP programmes: Access to Life Science, Access to Health Science, Introduction to and Medical Studies and Access to Biology and Chemistry.

University	Degree course names	Entry Requirements	Special Requirements/Comments
University of Glasgow	Pharmacology, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Psychology, BSc (Hons)	Pass all units and ABB student profile	Important: Must apply with science BSc UCAS code. Higher Mathematics required or possible mathematics summer school option. Please contact the SWAPWest office to discuss.
University of Glasgow	Sport and Exercise Science, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.
University of Glasgow	Zoology, BSc (Hons)	Pass all units and ABB student profile	SWAP students can also apply to a *University of Glasgow Articulation Programme . These programmes offer supported transition from HNC direct into year two of this University of Glasgow degree.

*University of Glasgow HNC Articulation Programmes

SWAP students can also apply for a University of Glasgow HNC Articulation Programme. These programmes offer supported transition from a bespoke college HNC directly into Year 2 of certain Life Science degrees (see above). With this supported progression from college to the University of Glasgow, these programmes provide an excellent opportunity for SWAP students who feel they may benefit from another year of study at college.

Subjects: Anatomy, Biochemistry, Genetics, Human Biology, Immunology, Marine and Freshwater Biology, Microbiology, Molecular and Cell Biology, Molecular and Cell Biology with Biotechnology, Molecular and Cell Biology (with Plant Science), Neuroscience, Pharmacology, Sport and Exercise Science and Zoology.

Please also see this web page: [https://www.gla.ac.uk/study/wp/hncarticulation/#lifesciences\(bsci\)](https://www.gla.ac.uk/study/wp/hncarticulation/#lifesciences(bsci)) .
